NEOLUX

Brand, technology, history

Road safety places especially tough demands on lighting solutions for vehicles. This is why NEOLUX put their faith in German technology.

Safety thanks to German technology

The NEOLUX brand means good quality headlights and signal lamps for price-conscious customers. Our product range includes special lamps for the discerning driver as well as standard replacement lamps. However, the following always applies: The intelligent lighting solutions from NEOLUX for cars, utility vehicles, or motorcycles make German quality affordable.

NEOLUX products are durable, manufactured according to German quality standards to meet legal safety requirements. NEOLUX vehicle lighting includes headlights, auxiliary lights and signal lights, lighting solutions with xenon and LED technology.

Research and development in Germany

Vehicle headlights must be bright and reliable. This is the only way to ensure safety on the roads. To guarantee this, NEOLUX adheres strictly to stringent German technology standards during the entire manufacturing process.

NEOLUX customers benefit from the wealth of expertise NEOLUX engineers use to keep developing technically demanding lighting solutions. An additional advantage is production exclusively according to strict German quality and safety standards, as NEOLUX is certified according to German standards.

Marketing and product management also takes place in Germany. This all flows into integrated processes ensuring that each light meets all legal requirements and thus the needs of the customers.

History and tradition

The links between the NEOLUX and OSRAM brands have a rich history: In 1923, the Swiss S.A. Lumière, based in Molsheim in Alsace, built a light bulb factory with an annual production of 800 000 units, NEOLUX emerging as a brand in 1925. In the 1930's and 40's, OSRAM Germany gradually invested in the company. In 1952, OSRAM and NEOLUX agreed on a strategic partnership under which NEOLUX in France then sold OSRAM products under the NEOLUX brand. At the start of the 1960's, OSRAM acquired the rights to the OSRAM brand name for France. Since 1965, NEOLUX was part of the OSRAM S.à.r.l. product portfolio. In 2011, NEOLUX was launched as a brand for automotive lighting.

Today, the NEOLUX secondary brand is protected in more than ninety countries and is the hallmark of good quality headlights and indicator lights for price-conscious customers.

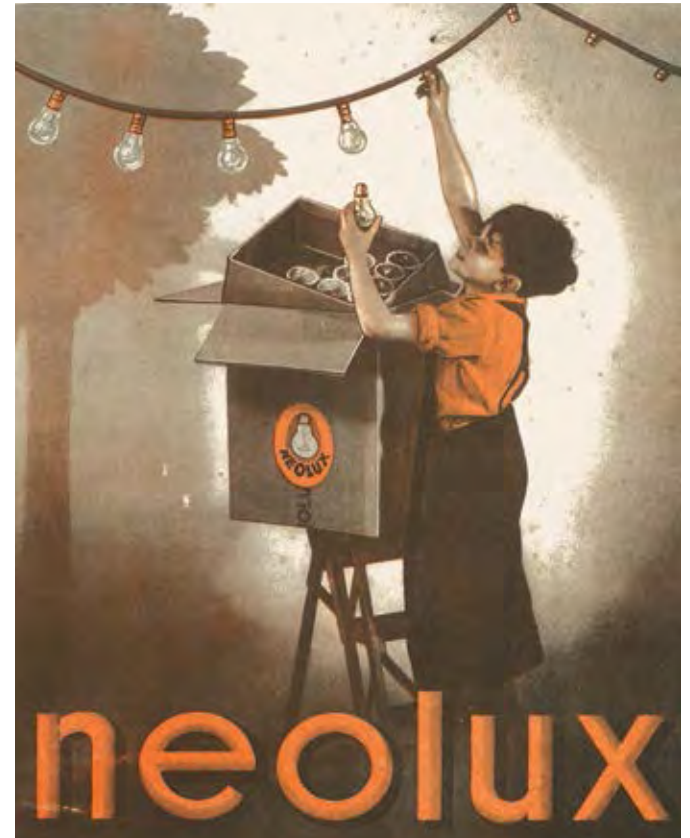

German quality standards

Many years of working closely with OSRAM has created a good reputation for quality, not least because road safety can only be made a reality with bright and reliable vehicle lamps. To consider the needs of their customers, NEOLUX ensures German technology standards at all stages of the supply chain. The research and development of our engineers forms the basis of our reliable lamps, which are manufactured according to strict German safety and quality standards. In order to continue compliance with requirements, divisions such as marketing and product management are also based in Germany.

Broad product range

The validated German quality standards apply to the entire tried and trusted NEOLUX range of halogen and signal lamps, interior lighting right through to xenon and LED lamps. The NEOLUX portfolio therefore offers more than 90 % of all key lamp technologies for cars, utility vehicles, and motorcycles. The NEOLUX range is completed by products for special customer requirements. Clearly structured packaging and well-arranged displays make it easier for customers to select the right lamp type.

NEOLUX has the right vehicle lamp for any driver.

History of NEOLUX

- **1923:** S.A. Lumière from Goldau, Switzerland built a factory in Molsheim, France: La Lampe NEOLUX S.à.r.l. with 120 employees and an annual production of 800 000 light bulbs.
- **1925:** First trademark protection on January 5, 1925 in France.
- **During the 1930's and 40's:** OSRAM increased its shares in La Lampe NEOLUX S.à.r.l.
- **1952:** OSRAM Germany and NEOLUX signed an agreement to enter into a strategic partnership.
- **1957:** NEOLUX started to sell OSRAM products in FRANCE under the brand NEOLUX.
- **Since 1965:** NEOLUX Molsheim was renamed OSRAM S.à.r.l. NEOLUX is part of the brand portfolio ever since.
- **2011:** NEOLUX was launched as a brand for automotive lighting.
- **Today:** The secondary brand NEOLUX is protected in more than 90 countries.

Cars

12V Halogen headlight lamps

Car lamps from NEOLUX ensure the roads ahead are well-lit and visible to others.

Standard, Extra Light, Blue Light or Extra Lifetime?
The choice is yours!

The NEOLUX range of halogen headlight lamps offers solutions for almost any need.

Do you value a wide range and reliable quality?

Standard 12V halogen headlight lamps offer a variety of sockets and wattages.

Want to see even more on the road?

The high-performance Extra Light 12V halogen headlight lamps from NEOLUX give up to 50% more light*.

Do you follow trends and make choices based on design?

The bluish white light of our Blue Light 12V halogen headlight lamps featuring xenon look give you a stylish appearance.

Tired of having to replace your headlight lamps?

With our Extra Lifetime headlight lamps, lamps need to be replaced less often. This gives you greater comfort and low-maintenance light for a longer period of time.

Your Standard benefits

12V LED Fog Lamp

LED Fog Lamps from NEOLUX provide you with better visibility and a cold white look.

LED Fog Lamp for better visibility.
The NEOLUX LED Fog Lamp is an upgrade solution for forward lighting powered by the latest LED technology that features a cold white color temperature of 6000K. Aside from their unique appearance, these lamps are a suitable complement for existing HID and LED systems and provide a homogenous and modern look. With an even distribution of light and a clearly defined cut-off line, it does not produce glare, allowing for better visibility on the road.

- Your product benefits**
- 6000K cold white color temperature
 - Suitable for H8/H11/H16 fog lamps
 - Ideal match for HID & LED systems
 - Elimination of glare through even distribution of light
 - Fits to most fixtures
 - No need for brackets
 - Long lifetime

Legal notice
No ECE approval. This means they must not be used on public roads. Please note: Use on public roads leads to cancellation of operating license and loss of insurance coverage. Not for sale in Germany.

12V LED Retrofits for exterior use

LED retrofits from NEOLUX provide ideal illumination for exterior vehicle applications, while consuming minimal energy. Upgrading your vehicle lamps has never been this simple and beneficial.

Modern aesthetic. Timeless performance.
NEOLUX LED retrofits transform vehicle exteriors with modern, cold white light. Offering a seamless plug-and-play installation, NEOLUX LED retrofits replace most traditional white auxiliary lamps with ease. The results are more than aesthetic. In addition to that the long-lasting, affordable NEOLUX LED lamps use less energy than conventional lamps.

With a color temperature of 6.000 K, NEOLUX has the ideal solution for upgrading the exterior appearance of your vehicle.

- Your product benefits**
- Contemporary, cold white color temperature with 6.000 K
 - Even light distribution
 - High brightness

12V LED Retrofits for interior use

With a color temperature of 6.000 K, LED retrofits from NEOLUX provide ideal illumination for interior vehicle applications, while consuming minimal energy. Upgrading your vehicle lamps has never been this simple and beneficial.

Modern aesthetic. Timeless performance.
NEOLUX LED retrofits upgrade vehicle interiors with modern, cold white light. Offering a seamless plug-and-play installation, NEOLUX LED retrofits replace most traditional auxiliary lamps with ease. The results are more than aesthetic. The long-lasting, affordable NEOLUX LED lamps use less energy than conventional lamps.

- Your product benefits**
- Contemporary, cold white light
 - Even light distribution
 - High brightness
 - Simple plug-and-play upgrade of traditional lamps
 - Affordable

Legal notice for interior use
INTERIOR USE ONLY. These products do not have ECE approval. This means they must not be fitted in any exterior automotive application. Not for sale in Germany.

12V LED Canbus Control

LED Canbus Control from NEOLUX helps you prevent LED lamp error messages.

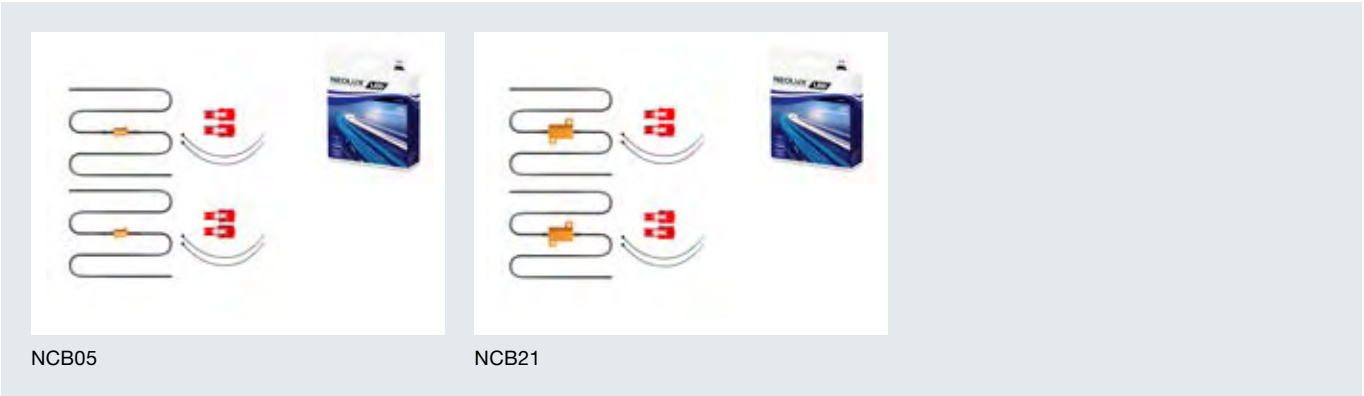

LED Canbus Control for lamp error elimination.
With the NEOLUX LED Canbus Control, you can eliminate error messages as well as indicator hyperflashing, both of which can result from the low amount of electricity used by LED retrofits. Through the thermal decoupling from the lamp, the easy-to-install LED Canbus Control ensures that the brightness and lifetime of your LEDs are maintained.

- Your product benefits**
- Elimination of error messages
 - No overheating of lamps
 - No reduction in lamp performance or lifetime
 - Easy installation

Almost sells itself: The eye-catching NEOLUX packaging

NEOLUX car lamps are sold in folding boxes, in blister packs, in softcover boxes or as sets. The packaging has been designed to reflect the product quality and makes the NEOLUX products even easier to recognize.

Consumer friendly and sales generators: The clear, concise, and quality design sets NEOLUX apart from the competition and promotes your sales. Product information is clearly arranged, the packaging is made from environmentally friendly materials and they are perfect for quick, space-saving storage.

Concise and informative

The folding cartons allow your customers to find the right product immediately.

Immediately persuasive

The blister packs (currently for car lamps) provide necessary key information at a glance.

Ideal as promotional placement

The new softcover boxes offer a large window for good visibility of the lamps.

Promotes spontaneous purchase

NEOLUX spare lamp set. In many countries it is compulsory to carry replacement lamps in your vehicle. The replacement boxes from NEOLUX contain the key spare lights for your customer – practical, handy, and easily storable in any car.

Sales promotion and customer service

Want to generate the most sales? NEOLUX supports you with intelligent campaigns for sales promotion and reliable customer service.

Top sales – just like that!
NEOLUX supports its customers with effective marketing strategies, well-thought out sales logistics, and reliable delivery. Use our attractive PoS materials and advertising campaigns to generate additional sales.

What else can we do for you?
Our experts are happy to answer any questions you may have about NEOLUX products.
